To Whom It May Concern:

Tom Kase, principal at AEM Architects, has asked me to write a letter of recommendation for their firm regarding the Reading Central Catholic High School project. As I have first hand experience with AEM, and specifically Mr. Kase, this letter is easy to write.

Our project, begun in 1998, was complex, fraught with challenges and fear. We interviewed several highly recommended firms and selected Mr. Kase and AEM based on our comfort with his approach and his deep knowledge of educational facilities. He also understands the complexities of working with volunteer organizations. He never missed a meeting (which often lasted past midnight) or a critical communications event. The firm was flexible, supporting Holy Guardian Angels in every aspect, and worked hard with us to reduce the project by almost \$1 million from original concept.

Our results speak for themselves. We selected the best firm possible. We are confident AEM has the people and talent to do the same for Reading Central Catholic. Of course, if the building committee would like to discuss AEM or Mr. Kase further with me, I can be reached at 610.921.2729. Mr. Stephen Uliana, Chairman of our building project, is also available to discuss this. His number is 610.320.6758.

Sincerely yours,

Rev. Msgr. Dennis T. Hartgen
Pastor
