To Whom It May Concern:

This letter is written as a strong recommendation of AEM Architects. This firm was the consensus choice of the committee of school board members and administrators to complete a high school feasibility study.

The district has been working with Phil Leinbach and other AEM personnel for almost two years. We are pleased with the time and effort AEM put into the preliminary work and final Feasibility Study document. We found them to be responsive to our concerns and suggestions throughout the process. Nothing was too much trouble.

The school board faces a very different decision. Should they renovate a 1960's building with a 1976 addition or build a new high school? Needless to say, these challenging economic times dictate that we leave no stone unturned as we deliberate. AEM has been most patient with us. They provided six options as part of the Feasibility Study, but they continue to address our questions and requests for new and modified considerations.

It is without reservation that I recommend AEM Architects for your consideration. I may be contacted at 610-683-7361 x106 for further discussion.

Sincerely,

Dr. Brenda A. Winkler
Superintendent
