To Whom It May Concern:

I am pleased and honored to write this letter of recommendation for the architectural firm of AEM Architects, Reading, PA.

As an administrator in this school district since 1987, I have worked on the following projects directly with AEM:

1. New Elementary Center
2. Renovation of Middle School
3. Renovation of High School
4. Two additions to the Elementary Center
5. One auditorium and classroom wing addition to the High School
6. Installation of an artificial surface to the athletic field
7. Installation of all weather track.

The high school auditorium project was completed in 2005 and the track and field reached its successful conclusion in August, 2006.

During this time span, I have worked with four architects from the firm and have found each one to be highly skilled, talented, caring and easy to communicate with professionals. The firm listens to you and staff and addresses your thoughts and concerns in developing your project's needs. Each is also very concerned about the cost feature associated with the project. AEM will provide you with options that range from a "Lexus" to a "Ford Pinto" and everything in between.

I recommend, without reservation, AEM Architects to assist you in your next building or facility project.

I will be more than happy to answer any other questions or concerns you may have.

Sincerely,

Richard J. Rada
Superintendent of Schools

RJR/jmg

We are an equal rights and opportunity school district.
